We give the story as fold us by one win was their or therebound.

There is a popular version among the solder of the problems and been made by either party, which both falled to agree apon, fary dedded to settle the whole maker by either party, which both falled to agree apon, fary dedded to settle the whole maker by either party, which both falled to agree apon, fary dedded to settle the whole maker by either party, which both falled to agree apon, fary dedded to settle the whole maker by either party, which both falled to agree apon, fary dedded to settle the whole maker by either party, which both falled to agree apon, fary dedded to settle the whole maker press goods, while U.S. draw forth his heretishe eight of which grant made in the remark "that for weaks path he and his offers had been reduced to amoking dread mules' talk, and that a real Hayana was indeed a luxury."

Lighting their eight, they sai down under "and cak," and commenced the game. In cutting, Jen won the deal, and the result on the first round, was Jens high, low lack game—Grant, giff—four to one. Next round, frant made three, Pan nothing—four each. The game was getting interesting. For such the north fall of grant made intered his proposal to cut. Mexico, in every phase of that war, the nonintervention which they require all Foreign

that the inberent normal opinion of Mexico
arons a government there, republishen to form
and democratic in its organisation, in preference to any monarchical institution to be
imposed from abroad. This Government
know also that this normal opinion of the
propile of Mexico resulted largely from the
infurnce of popular opinion in this country
and is continually invigorated by it.

The Fresident believes, moreover, that
this popular opinion in the United
States is just in itself; and eminently essential to the progress of civilization on the
American continent, which civilization, the
believes can and will, if left free from European resistance, work harmoniously together
with the advancing refinement of other continents. This Government believes that
